CERN ATLAS Note title

ATLAS collaboration

Summary

For this style of document, the abstract has more the function of a summary.

List of Figures

List of Tables

1 Introduction

Its always good to have an introduction, if only to have an example for a section. And here is an example for a reference from the bibtex file (see [1]). Its also pretty easy to reference figures (see Figure 1).

Figure 1: Example of how to include a figure. This works with all sorts of formats, eps, pdf, png.

You also have the option of using colored text, for example this part in blue, this part in red and this part in green, before going back to black.

1. Everyone loves an enumerated list.

2. If you prefer bulleted lists, see below.

Of course there are always use cases for list with enumerations, and lists with bullets only, which is why it is useful to have examples of both.

- Everyone loves a bulleted list.

- If you prefer an enumerated list, see above.

2 The first section after the introduction

Since an example of a ToC is not much fun with only one section, lets make another one and throw in some subsections as well.

2.1 The first sub-section

How about structuring the document into more subsections.

2.2 The second sub-section

Tables are just as easy as figures to construct and reference, for example this one here (see Table 1).

col1	col2	col3	col4
Multiple row	cell2	cell3	cell4
	cell5	cell6 and cell7	
	cell8	cell9	cell10
cell11	cell12	cell13	cell14
Multicolumn			

Table 1: A table is as happy about a caption as a fiugre.

3 Conclusions

If the document purpose calls for conclusions, this would be the place to put them.
