Chapter 1

Introduction

1.1 Background

Type here the introduction to your dissertation. You can create different sections or subsections with the corresponding commands.

1.1.1 Next subsection

The MainDocument.tex file where you want to start. It contains the main structure of the book.

A .tex file can be created (and placed in the Chapter folder) for each chapter and be called in the MainDocument.tex file with the `\input` command. This format is handy when doing "collection of papers" type of thesis, as it is easier to add your articles .tex files to this document.

This is an unofficial template created by Dr H Diego. This document is provided ONLY as a reference for thesis writing. The author has used this template for submission at the University of Liverpool. However, if the user deems it appropriate, it can be used for any other university or institution.

The potential errors, uses of this example are totally under the user's responsibility. Likewise, the user is responsible for all the ideas, concepts or developments expressed in their own documents.

Chapter 2

Content chapter

This another content chapter to tell the story of your research.

2.1 Introduction

The text can include anything you want. For example a citation using the `\cite` command [1].

2.1.1 More content

You can also include some equations like Equation 2.1. More info about equations and mathematical expressions: Maths.

$$\underline{P}(x_q) = \min_{P(X_i|\pi_i) \in K(X_i|\pi_i)} \sum_{x_1, \dots, x_n \setminus x_q} \prod_{i=0}^n P(x_i|\pi_i) \quad (2.1)$$

Include figures. More info on figures: Figures.

Include Tables like Table 2.1. More info on tables: <https://www.overleaf.com/learn/latex/Tables>.
